About Hot Springs Lodge & Pool

The Hot Springs Pool, established in 1888, is the largest mineral hot springs in the world, measuring over two blocks long, surrounded by the Rocky Mountains, and along the banks of the Colorado River. The thermal waters are 90°-93°F (32°-34°C) in the large pool and 104°F (40°C) in the smaller, therapy pool.

Features like two water slides, inner tubes, diving boards, and bubble chairs bring out the kid in everyone. Visitors have access to modern locker room facilities, lounge chairs, towel service, and swim suit rentals. Other amenities include a full service Sport Shop, the Hot Springs Deli and Snack Bar, the Hot Springs Athletic Club, and a challenging miniature golf course.

A new spa with eight facial/massage rooms including two couples suites, five hydrotherapy tubs, and one Vichy shower hydrotherapy room will be opening in the fall of 2008. Manicure and pedicure services will also be offered. The spa will focus on wellness and natural health practices, which has a deep-rooted history at this facility.

The Hot Springs Lodge & Pool is located in Glenwood Springs, Colorado, between Aspen and Vail, 165 miles west of Denver and 90 miles east of Grand Junction on Interstate 70 off exit 116 at 401 North River Road.
